WHY PREFORM COLOR MATTERS

When choosing our preformed thermoplastic pavement markings you are choosing engineered performance backed by decades of industry experience. Our materials are designed to handle harsh climates frequent traffic and real-world conditions without sacrificing clarity or consistency.

From highways and intersections to parking facilities and pedestrian spaces Preform color solutions adapt to your environment. Designed for efficient application and long-term reliability every batch is quality-checked to ensure consistency and performance in the field.

THIS IS FUNCTIONAL DESIGN BUILT TO PERFORM

All non-listed colors are premium custom colors and require Technical Department approval prior to pricing.
All MUTCD approved colors available in enhanced skid and reflective TractionBrite upon request
